N : Vietnamese

E : anhdn@hau.edu.vn

DOB: August 26, 1988

A : Hanoi, Vietnam

As an architect, I am inspired by the relationships between urban, culture, and nature. I am preoccupied with the rising issues of rapid urbanization, environmental degradation, and the impacts of climate change in developing countries like Vietnam. As a hard-working person with critical thinking and analytical experiences as well as a responsible team player, I look forward to accomplishing any task and participating with your large team of researchers.
